

The Prolonged Tittle -Tattle

- Thy **YOUNGER**, Thy **CLEVER**, Thy **CHEEKY**, Thy **OLDER**, Thy **GRUMPY**, Thy **LAZY**, Thy **SENSITIVE**, 'Em a combo of fights.
- **BREAKING NEWS: THE VAMPIRE DIARIES** virus has spread in the entire campus of Hopetown.
- The craze of **'IT ENDS WITH US'** is going a bit out of hand these days.
- One gets lost, watching the edits of the movie **'MY FAULT'**. The wisest of us must stop this fever before it destroys us all.

Thoughtful Threads

The thing ruining our Earth is plastic.

Something really drastic.

Damaging our health & nature,
Harming the creatures and
Reversing the temperature.

Throwing plastic in the wrong bin,
should be a sin.

The older generation thought they
had created something big,
But now it has increased so much,
that we have to burn it in a land
pit.

Affecting us like the spreading
wildfire,

Knowing the cons, yet we are still
the buyers.

Not even God knows how much
plastic is used every second,
Oh, how I can't even imagine!

The uncountable things it has
reckoned.

For our wrong doings, it's time to
pay,

By 2050, I don't think on this planet
Earth,
we will be able to stay.

So we have to take action without
delay.

-Alisha Battoo & Aarshiya Batra
Grade 8

WHAT WE ASK...

Our lives will soon be over; best hope is that we don't have any regrets. If we don't take action today, don't raise educated activists, the dignified planet we once knew will just remain a part of History. Why is it that young people have to stand up today? The older generation took what we had and left us with nothing for a better tomorrow. What is it that our Government provides? The real answer is nothing much. All we young activists ask is the government to take action, people to spread awareness in their surroundings. Isn't it, after all, our own planet?

Our own duty?

-Naisha Chakraborty
Grade 8

EARTH, OUR ONLY HOME

Let's take a step forward to help our earth,

Use plastic but recycle it afterwards.

Let's take an initiative to save our earth.

As together we stand, together we fall,

If we are together, we can make it happen after
all.

All the mistakes that we made, can be undone,
Let's do this together as one.

"Let's save the earth," "Let's plant more trees".

Can we please let our mother earth live at
ease?

Harming the environment won't give you fame,
so please cooperate,

Indirectly we are decreasing the human race.

As we are describing the feeling of the earth,
Through our poem, it's really not something that
we have to postpone,

So, let's make the earth our real home!

-Samanvya Deswal, Grade 7

Save our earth!

Planet earth is what we call home.

We need to take care of it.

We throw garbage everywhere,
Plastic and so much more!

Do you know how painful it could be
To manage this waste?

Take a step forward for our earth,
Don't let it cry.

Just have some mercy,

Or one day we will die.

Save our Earth!

Planet earth is dying.

Don't lose your hopes,

Just keep trying.

Grade 8

Mother is someone who gives us
life and helps us with everything.

She always has the solutions to
the problems and dedicates her
time to her children, whether she
is a working woman or a
housewife. She prepares delicious
meals and works hard to ensure
her family's well-being. She

assists us with our studies, helping
us achieve good Grades in the
assignments.

MOTHER IS THE MOST VALUABLE
PART OF OUR LIFE.

ACADEMIC ALCOVE

The aim of introducing the Middle School Newsletter is to provide a forum and opportunity to students to express their thoughts and creativity freely. The essence of the newsletter lies in creating a happy Hopetavian and fostering confidence among students so they can voice their opinions on any school-related issue. Additionally, as suggested by our principal, I aim to instill a journalistic approach in the Middle School students and cultivate writing skills from a young age. This Newsletter will not only offer various opportunities to the entire Middle School community but also nurture them as innovative writers and speakers.
